Zapaska (Ukraine)

Zapaska is a Ukrainian indie-pop duo. Two performers, Jana Shpachynska and Pavlo Nechytajlo, use traditional instruments (guitar, mini button accordion, kalimba, piccolo trumpet) and electronics (groove box, effect processors, looper) to create their own particular sound. Their simple, yet quite experimental compositions are a living mass, created here and now. Zapaska has just released their debut album Kontur, also available digitally as a free download 'for everyone going through these difficult times because Ukraine is struggling for a better future'. The record includes a guest appearance from Robert Piernikowski (Napszykat, PL) and a remix by the Czech duo DVA and was released on the prominent Slovak alternative label Slnko Records. <http://zapaskamusic.com>

INclusion is a band created in 2013 in Luxembourg, playing original Hip Hop & Funk tunes, including Pop, Jazz & Rock elements. Simple, easy on the ear tunes that make you feel happy. A strong rhythm section rounds up this unique project. Not to be missed.
